

REPLY TO THE QUERIES RAISED BY BIDDERS
(TENDER NO TE091/2016)

COAL TRANSPORTATION SERVICES

It is requested from ICVL to allow rear end tippers/trailers for this operation also in addition to the side tipping trailers. The choice of equipment between the two should be left with the contractor as long as he maximizes on operational efficiencies at economical cost.

Reply :

Side tipping trucks have been considered after careful examination of various aspects of our operational requirement as such.
